

## Programa del II Simposio de Primatología en el Perú

### Jueves 7 de noviembre

9:00 am a 4:00 pm	Auditorio del IIAP (Av. Abelardo Quiñones km 2.5) <b>Taller de Educación Ambiental para la Conservación de Primates</b> Aula de la Universidad Científica del Perú (Av. Abelardo Quiñones km 2.5)
9:00 am a 4:00 pm	<b>Encuentro de Centros de Rescate especializados en Primates</b> Aula de la Universidad Científica del Perú (Av. Abelardo Quiñones km 2.5)
7:00 a 9:00 pm	<b>Inauguración</b> Auditorio del IIAP (Av. Abelardo Quiñones km 2.5) <i>Palabras de Bienvenida a cargo del Comité Organizador</i> <i>Palabras de Bienvenida a cargo del Presidente del IIAP</i> <i>Conferencia Dr. Filomeno Encarnación</i> <i>Conferencia Dr. Russell Mittermeier</i> <i>Inauguración del 2do Simposio a cargo del Embajador de Alemania en Perú</i> <i>Número Artístico</i> <i>Recepción</i>

### Viernes 8 de noviembre

Desde 8:00 am	Auditorio del IIAP (Av. Abelardo Quiñones km 2.5) <b>Entrega de materiales</b>
9:00 a 9:45 am	<b>Conferencia Magistral - Dr. Damián Rumiz: "Primates of Bolivia and their status in the dry and subhumid forests of Santa Cruz"</b>
9:45 a 10:45 am	<b>Presentaciones Orales</b> <i>Eder Murrieta Villalobos: "Preliminary study on the distribution of San Martin titi monkeys (Callicebus oenanthe) in the Morro de Calzada protected area (San Martin, Peru)"</i> <i>Eduardo Pinel Ramos: "The density of San Martin titi monkeys (Callicebus oenanthe) as an indicator of its habitat preferences in different types of tropical forest habitats"</i> <i>Annie Escobedo Grandez: "Estado de conservación de cuatro primates amazónicos: un caso práctico de la aplicación de modelos de sostenibilidad de la caza, con enfoque participativo"</i>
10:45 a 11:15 am	Receso - Coffee Break
11:15 am a 12:35 pm	<b>Presentaciones Orales</b> <i>Luis Lopez: "Current status of primates in high disturbance areas of northeastern Peru"</i> <i>Iris Arévalo: "Primate diversity and abundance in the Curaray River Basin, Peruvian Amazonia"</i> <i>Elvis Charpentier Urraco: "Primates Surveys in cloud forests of the Region Cajamarca, Northern Peru and threats to their populations"</i> <i>Jaime Descailleux: "Evolution of sex chromosomes in South American Primates" CANCELADO</i>
12:35 a 2:45 pm	Almuerzo
2:45 a 3:30 pm	<b>Conferencia Magistral - Dr. Pablo Stevenson: "The role of the large Neotropical monkeys in seed dispersal, forest regeneration and plant diversity"</b>
3:30 a 4:50 pm	<b>Presentaciones Orales</b> <i>Vanessa Luna : "Resource Use by a group of Gray Woolly Monkeys (Lagothrix cana) at Yanachaga Chemillen National Park, Peru"</i> <i>Alisa Aliaga Samanez: "Diet of a group of spider monkeys Ateles hybridus in a forest fragment in the Caparo Forest Reserve, Venezuela"</i>

*Emérita Tirado Herrera: "Eto-ecology red titi monkey Callicebus cupreus at the Biological Station Quebrada Blanco, Loreto- Peru"*

*Elizabeth Gonzáles Valentín: "Effects of canopy gap edges in tufted capuchin monkeys (Sapajus nigritus) in Iguazu National Park, Argentina"*

4:50 a 6:15 pm

**Sesión de Posters 1 - Coffee Break**

6:30 a 8:00 pm

### Sábado 9 de noviembre

Auditorio del IIAP (Av. Abelardo Quiñones km 2.5)

**Conferencia Magistral - Dra. Stella de la Torre "Effects of Forest Fragmentation on Populations of Pygmy Marmosets, *Cebuella pygmaea*, in Ecuador"**

9:00 a 9:45 am

9:45 a 10:45 am

**Presentaciones Orales**

*Xyomara Carretero Pinzón: "How much do we know about landscape-scale impacts of habitat loss and fragmentation on primates?"*

*Jan Vermeer: "Conservation and sustainable development of the Los Chilchos Valley, Peru"*

*Andrea Tapia Arboleda: "Feeding Ecology of the Brown Headed Spider Monkey (*Ateles fusciceps*)"*

10:45 a 11:15 am

Receso - Coffee Break

11:15 am a 12:35 pm

**Presentaciones Orales**

*Eréndira Gomes Espinoza: "Cortisol Levels and Agonistic Behavior of two Groups of Free-Ranging Mantled Howler Monkeys"*

*Carmen Reátegui Bardales: "Intestinal helminths of *Saimiri sciureus*, *Saguinus mystax* and *Saguinus nigrifrons* in Loreto-Peru"*

*Jesús Lescano: "Reversible Chemical Immobilization of Peruvian Red Necked Owl Monkeys (*Aotus nancymae*) using Ketamine, Xylazine and Midazolam – Preliminary Data"*

*Nestor Allgas: "Primate Surveys in the Marañón-Huallaga Landscape, Northern Peru with Notes on Conservation"*

12:35 a 2:45 pm

Almuerzo

**Conferencia Magistral - Dr. Mauricio Talebi: "Diversity and conservation threats to Brazilian Primates"**

2:45 a 3:30 pm

3:30 a 4:50 pm

**Presentaciones Orales**

*Julian León Ortega: "Variación acústica en whynnies y vocalizaciones de larga distancia de del mono araña café (*Ateles hybridus*)"*

*Amalia Sánchez Palacios: "Territorial Mapping of *Alouatta palliata* in the Northwest Biosphere Reserve, Tumbes 2010"*

*Angela Maldonado: "In-situ conservation as a strategy against illegal traffic of night monkeys in the Colombian-Peruvian border"*

*Raúl Bello Santa Cruz: "Results and Projections for the Reintroduction Program of Black Spider Monkeys, *Ateles chamek* (Humboldt, 1812) in Peru's South-East Amazonian Region"*

4:50 a 6:15 pm

**Sesión de Posters 2 - Coffee Break**

### Domingo 10 de noviembre

**Conferencia Magistral - Dra. Patricia C. Wright: "Primate Community Comparisons: South America and Madagascar "**

9:00 a 9:45 am

9:45 a 10:45 am

**Presentaciones Orales**

*Cecilia Juarez: "Primatological long-term studies in Argentina: Azara's owl monkeys in the Humid Chaco"*

*Antonio Bóveda: "Primates as bioindicators to evaluate the conservation agreements in the Bosque de Protección Alto Mayo"*

*Pedro Pérez Peña: "Conservationists vs Indigenous Hunters: who calculates the abundance of primates better?"*

10:45 a 11:15 am	Receso - Coffee Break
11:15 a 11:55 am	<b>Presentación de Resultados del Taller de Educación Ambiental</b>
11:55 am a 12:35 pm	<b>Presentación de Resultados del Encuentro de Centros de Rescate</b>
12:35 a 2:45 pm	Almuerzo
2:45 a 3:25 pm	<b>Presentación de Borrador del Plan Estratégico para la Conservación de Primates del Perú</b>
3:25 a 4:40 pm	<b>PLENARIA</b>
4:40 a 5:10 pm	Concurso de Vocalizaciones
5:10 a 5:40 pm	Receso - Coffee Break
5:40 a 6:30 pm	Clausura del Simposio y Premiaciones

---

**Auditorio del IIAP (Av. Abelardo Quiñones km 2.5)****Sesión de Posters 1 (4:50 a 6:15 pm, viernes 8 de noviembre)**

---

- 1 Allison Nuñez: "Characteristics of fruits consumed by *Saguinus nigrifrons* (*Callitrichidae*) in the Estacion Biológica Quebrada Blanco, Loreto Peru"
  - 2 Ana Díaz: "Food and nesting preferences of the night monkey (*Aotus* sp. *Humboldt 1812*) in indigenous communities of San Juan de Atacuari and Siete de Agosto, Puerto Nariño (Amazonas - Colombia)"
  - 3 Astrid Hernández: "A preliminary study of density and population structure of the night monkey (*Aotus nancymaae herskovitz, 1983*) in the municipality of Puerto Nariño, Amazonas- Colombia"
  - 4 Vanessa Luna: "Seed Dispersal by a group of Gray Woolly Monkeys (*Lagothrix cana*) at Yanachaga Chemillen National Park, Peru"
  - 5 Eder Murrieta : "Connectivity between habitat patches for an endangered endemic primate: *Callicebus oenanthe* in San Martin, Peru"
  - 6 Flor de Maria Gomez : "Registration of Primates in the Upper and Lower Urubamba, Cusco - Peru (2005-2010)"
  - 7 Jeisson Castro: Survey of the current conservation status of the gray tamarin (*Saguinus leucopus*)
  - 8 Juan Jerí : "Characterization in Cases of Primate Reports Made to the NGO Amazon Shelter – Lima Office"
  - 9 Mark Bowler: "The veterinary management activity for captive groups of red uakari monkeys (*Cacajao calvus*) in Huachipa Zoological Park, Lima, Peru"
  - 10 Mark Bowler: " The histomorphological features that contribute to the red facial skin of the bald uakari monkey (*Cacajao calvus ucayalii*) "
  - 11 Mark Bowler: "Birth of a red uakari monkey (*Cacajao calvus*) in the Pilpintuwasi Rescue Center, Iquitos, Peru."
  - 12 Miluska Navarrete: "Evaluation of the tuberculosis in nonhuman primates being raised in semicaptivity in the Peruvian jungle"
  - 13 Pablo Reátegui: "Morphometry of fruits consumed by squirrel monkeys (*Saimiri sciureus*) in the allpahuayo research center, Loreto-Peru"
  - 14 Xyomara Carretero-Pinzón: "How does the Colombian squirrel monkey cope with habitat fragmentation?"
  - 15 Zoila Vega: "Presence of *Alouatta seniculus* (*Linnaeus, 1766*) in Carmen De La Frontera - Huancabamba, Piura Perú"
- 

**Sesión de Posters 2 (4:50 a 6:15 pm, sábado 9 de noviembre)**

---

- 16 Annie Escobedo: "Distribution and use of *Ateles belzebuth* by Kandozi indigenous people, in the Daten del Marañon Province, Peruvian Amazon"
- 17 Cindy Hurtado: "Population Status of the black howler monkey (*Alouatta palliata*) in the Noroeste Biosphere Reserve. What do we really know?"
- 18 Diana González: "Vocalizations study of a titi gris group (*Saguinus leucopus*) during the reintroduction process (rehabilitation, pre - liberation and liberation) in guayabal, tolima."
- 19 Eder Murrieta: "New localities for the San Martin titi monkey (*Callicebus oenanthe*) south of the Huayabamba River"
- 20 Elisa Jimenez: "Intestinal parasites of Woolly Monkeys (*Lagothrix lagotricha lugens*) in the Cueva de los Guacharos Natural National Park- Colombia"
- 21 Jesús Lescano: "Herpesvirus-like infection in an Owl monkey (*Aotus nancymaae*) – clinical and histological findings"
- 22 Jocelyn Perez: "Virus seroprevalence in wild monkeys of the Peruvian Amazon"
- 23 Jose Serrano: "Brief morphometric revision of the tufted capuchins of East Peru (*Cebidae: Primates*)"
- 24 Mark Bowler: "Hematological parameters for red uakari monkeys (*Cacajao calvus*) in captivity in the Huachipa Zoological Park, Lima, Peru"

- 25 | *Mark Bowler: "Hematological parameters in semi-free ranging red uakari monkeys (Cacajao calvus ucayalii) in rescue centers in Iquitos, Peru"*
  - 26 | *Miluska Navarrete: "A study of the hematology, parasitology, electrocardiographic and blood pressure of Common Woolly Monkey (Lagothrix lagotricha) reared in semi-captivity in Lagunas, Loreto"*
  - 27 | *Nancy Carlos: "Massive parasitosis in confiscated primates: a case description of squirrel monkey Saimiri sciureus "*
  - 28 | *Pedro Perez-Peña: "Primate density and seasonal habitats preference in the Pucacuro National Reserve, Peru"*
  - 29 | *Pedro Perez-Peña : "Can the sustainable use of game animals help to recover the woolly monkey Lagothrix poeppigii in the Pucacuro National Reserve?"*
  - 30 | *Cristina López: "The yellow-tailed woolly monkey in Loreto: Challenges and Opportunities for its Conservation"*
  - 31 | *Rosario Huashuayo: "The process of habituating a group of San Martin titi monkeys, Callicebus oenanthe in the fragmented secondary-forest of the Morro de Calzada (San Martin, Peru)"*
  - 32 | *Nofre Sánchez: "Enteropathogenic E. coli in Aotus infants with diarrhea in captivity"*
  - 33 | *Nofre Sánchez: "Sanitary evaluation of a reproductive colony of Aotus in the CRCP - Iquitos-Peru: Clinical examinations, hematological profiles and renal, hepatic and cardiac assessment"*
-
